Cookies can be “persistent” or “session” cookies. The Makings Consulting website uses both session and persistent cookies. A persistent cookie is a data file capable of providing websites with user preferences, settings and information for future visits. Persistent cookies provide convenient and rapid access to familiar objects, which enhances the user experience (UX). A persistent cookie is also known as a stored or permanent cookie.

Session cookies are stored in memory and never written to disk. When the browser closes, the cookie is permanently lost from this point on. If the cookie contains an expiration date, it is considered a persistent cookie. On the date specified in the expiration, the cookie will be removed from the disk.
